

We have been
learning about....

13th May 2022

We cleared out the vegetable patch and planted LOTS of carrots!

We have been learning about equal parts using out part/whole frames!

We planted so many things that we started to run out of room – just like Errol!

It started to rain so we made a tent!

Learning about size, height, cause and effect and working together through using the blocks!

We took part in a drama workshop about recycling.

We pretended to be eco superheros!

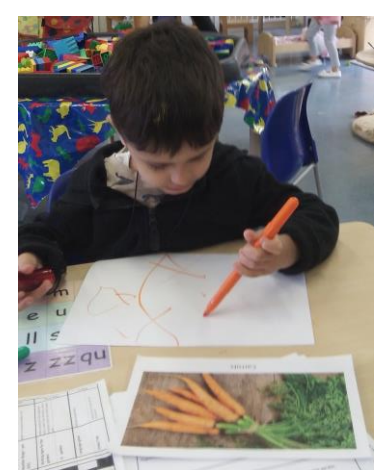

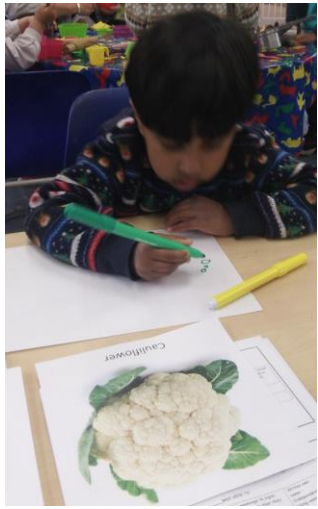

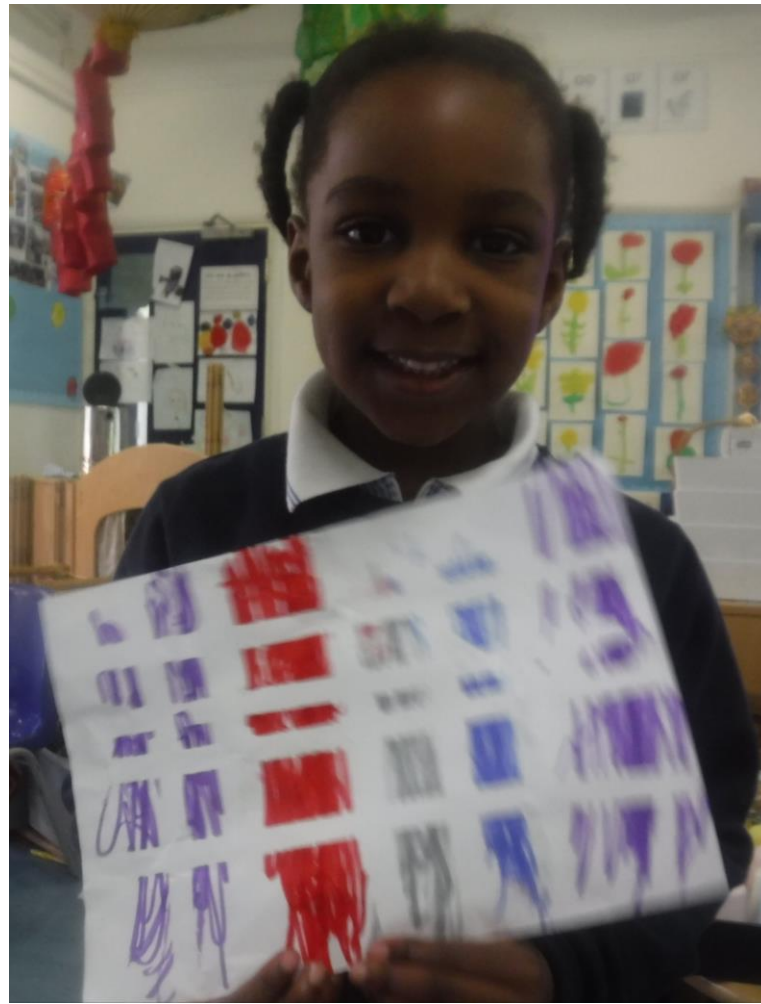

We wrote labels for our vegetable garden!

Can you remember what vegetable you drew?

We created pictures using the art tape.

What else did you learn about this week?
