

**We have been learning
about...**

21.11.25

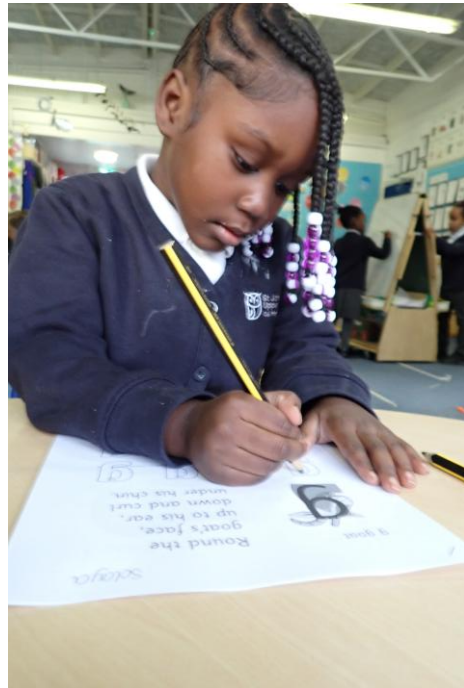

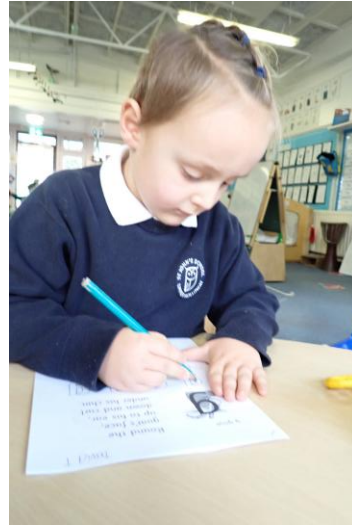

We thought about what we would need to take with us when we go to find the fruit bat! What would you put in your bag?

In Maths we have been thinking about parts and the whole. Can you see the whole group or just part of the group?

**We have been
practising our
letter formation!**

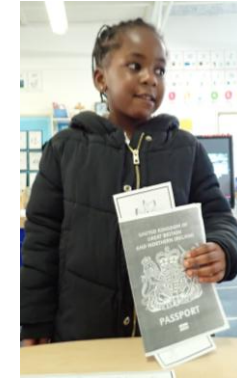

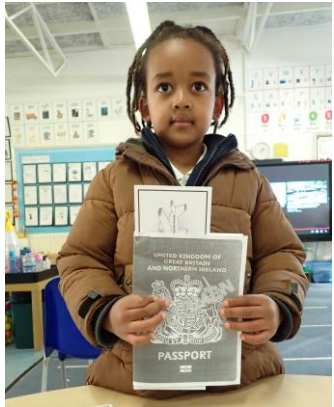

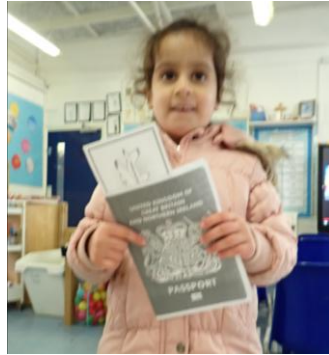

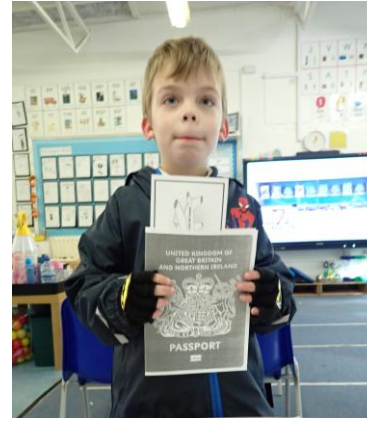

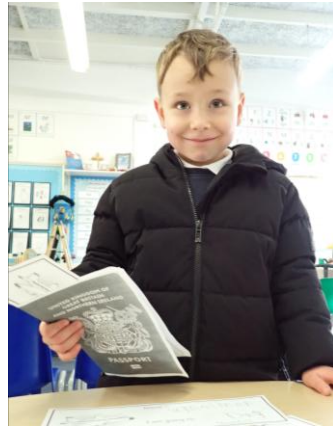

What did you learn about in PE? How did you feel after all that jumping?

We played stuck in the mud!

**We got on a plane
to go and look for
the fruit bat!**

**We went through airport
security and checked in with
our tickets.**

We boarded the plane...ordered from the refreshment trolley and settled in for a long flight.

We landed in South America!

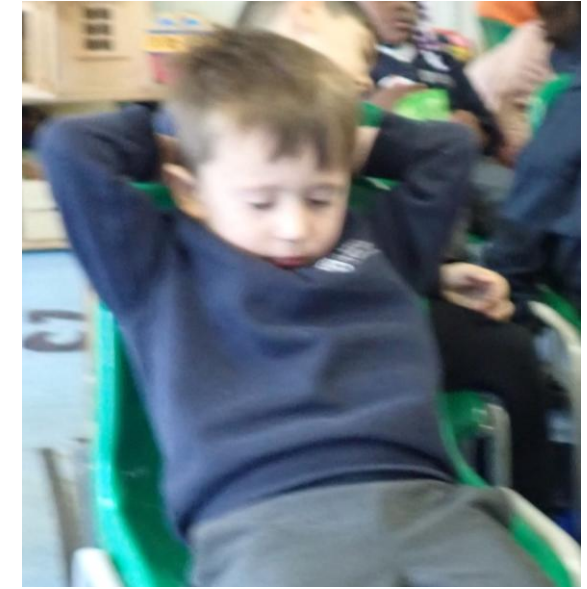

**We knew the
fruit bat was
close because
we saw a half
eaten pear in
a tree!**

We looked everywhere that had trees and finally found Freddie the fruit bat hanging upside down in a tree!

We made it back to the airport and flew back to London. The children (and our pilot) were very tired after their long search so they had a nap on the way back home!

Our wonderful reading is getting better and better!

**Happy
5th
Birthday!**

What else did you learn about this week?
