

We have been learning
about ...

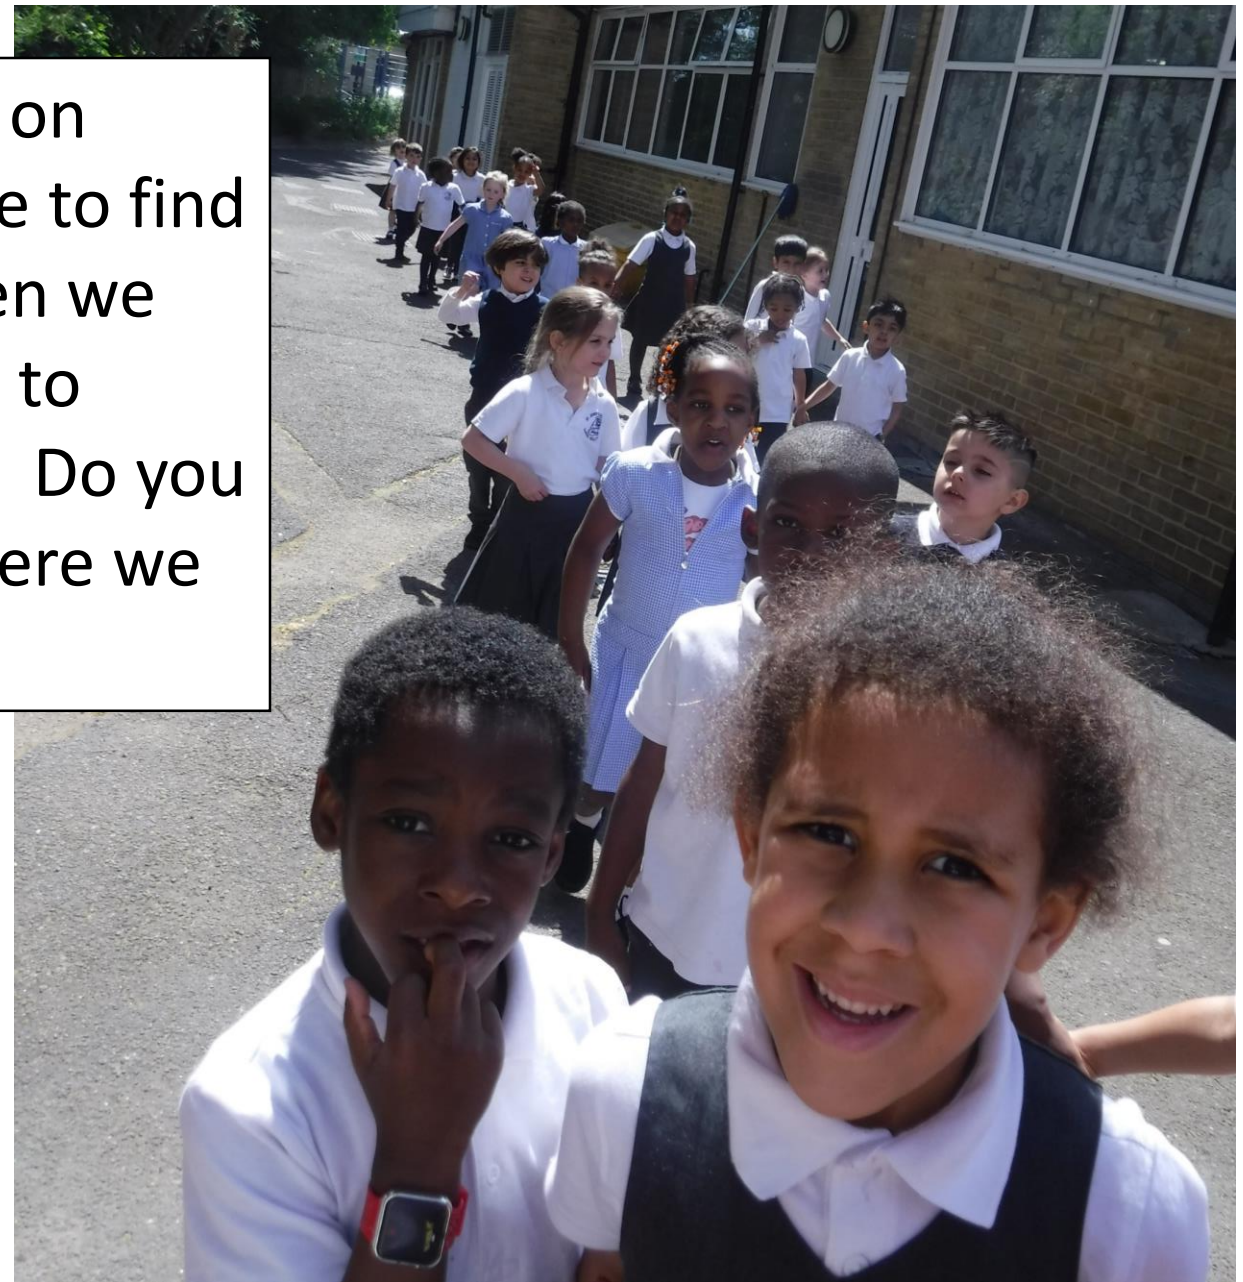

29.4.22

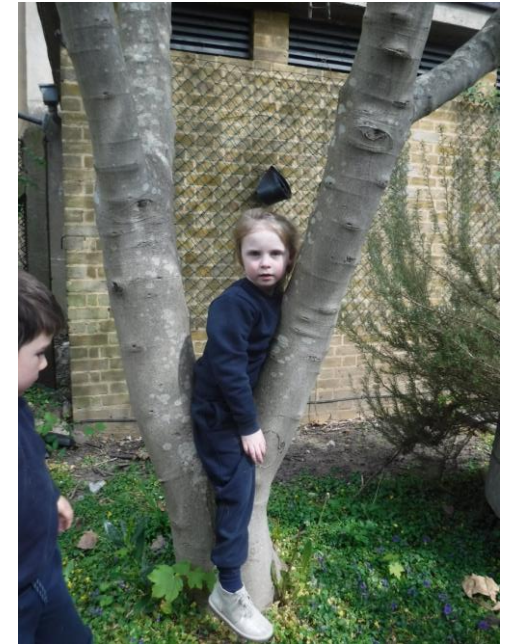

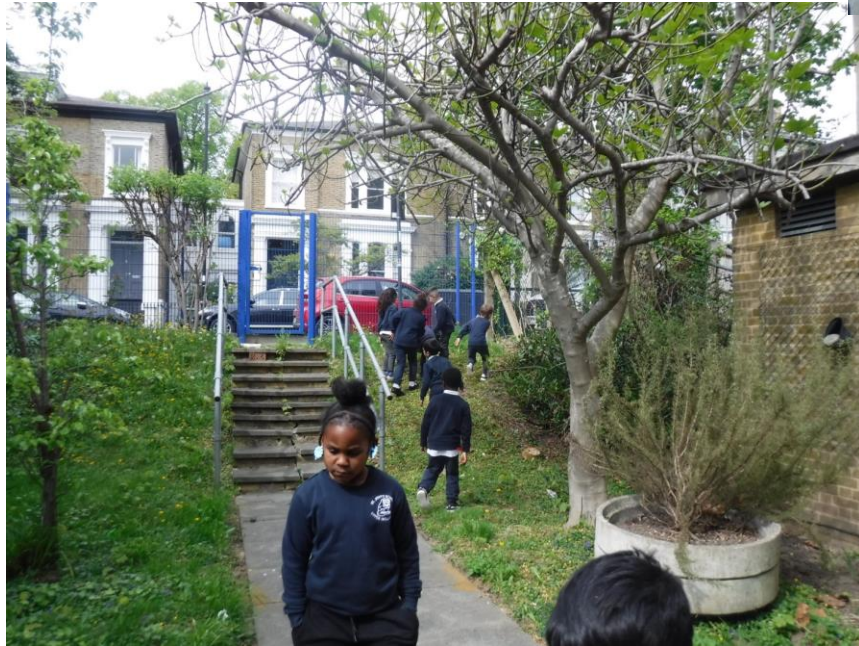

We have been practicing counting objects we cannot move! We counted how many seconds we could stand on one foot, how many push ups we could do and how many seconds we could lean over without falling over!

We went on
adventure to find
the garden we
are going to
redesign. Do you
know where we
are?

We explored the garden we are going to redesign as part of our core text Errol's Garden.

We compared real grass and fake grass and thought about the types of things we would see in a real garden.

We are in a competition with the whole school to see who can grow the tallest sunflower.

What do you think
we need to do to win
the competition?

Do you think the
Nursery or
Reception class will
grow the tallest
sunflower?

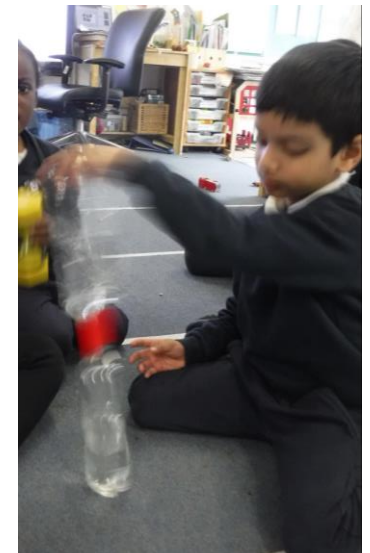

Why do you
think that?

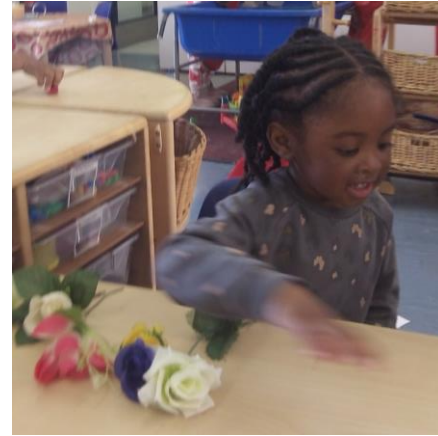

As part of our RE session we thought about who would help us if we were scared. We made the room really dark and put very loud thunder and lightning on the smartboard! We explored the tornado tubes, trying to find out the best way to create the tornado shape in the bottle.

We have been practising our subitising and counting. We have been learning to move the objects as we count them.

PE!

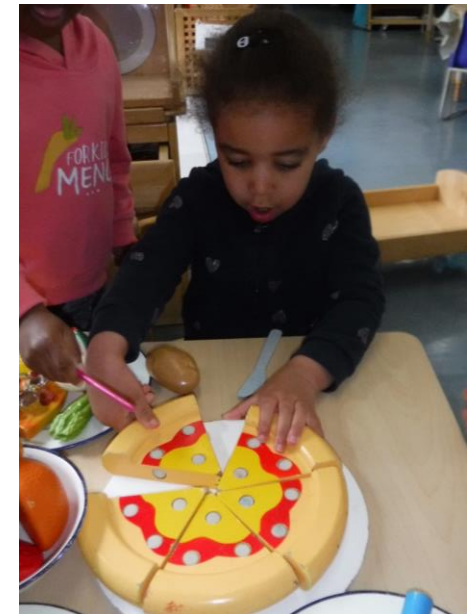

Nursery read their books during guided reading.

What was your book about?

What
else did
you learn
about
this
week?

We went to see the display of our Bog Babies. We were very proud of our work!
