

We have been learning  
about...

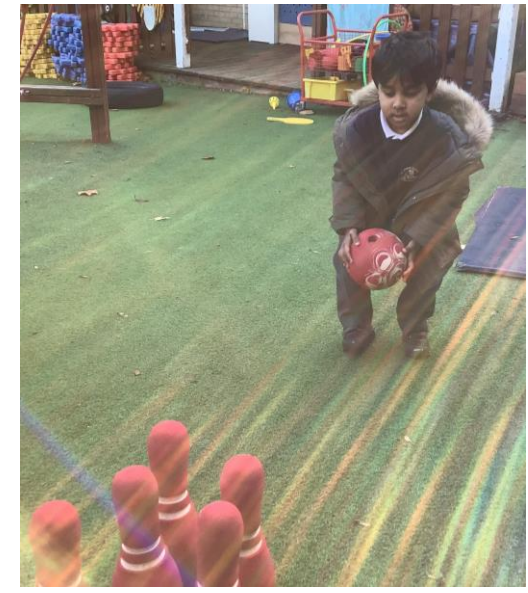

2<sup>nd</sup> December 2022

Olivia, Hannah and Ayoub wanted to make a camp fire. They used the Forest School fore steels to try to create a spark. Hannah and Olivia had used the fire steels when they went to Forest School. They persevered until they finally managed to create a spark. However, the leaves were too wet to set alight.

We thought about the composition of number through playing skittles!

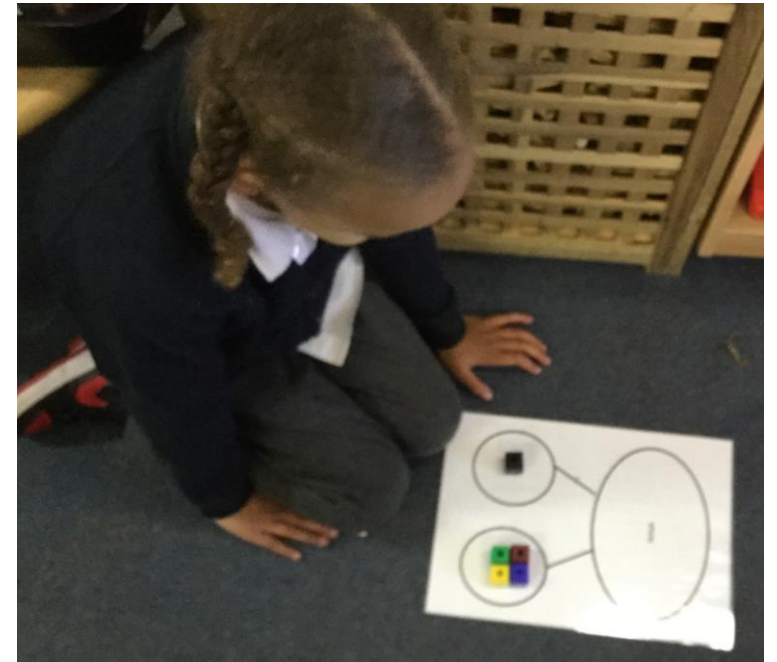

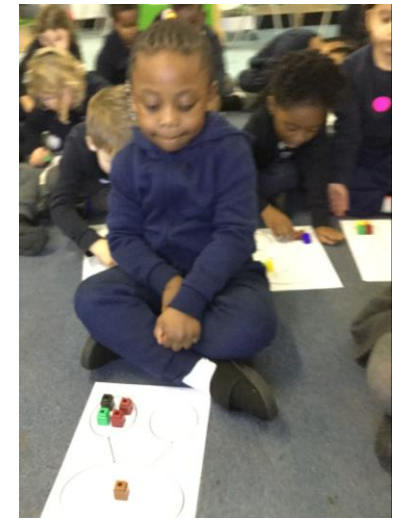

How many different ways can you make 5?

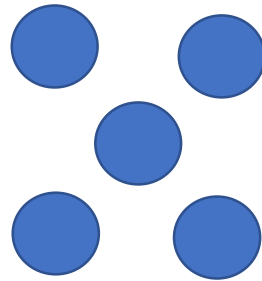

We have  
been  
practising  
our  
Nativity  
songs!

**5 is made of:**  
**5 and 0**  
**4 and 1**  
**3 and 2!**

How did you make your drip painting?

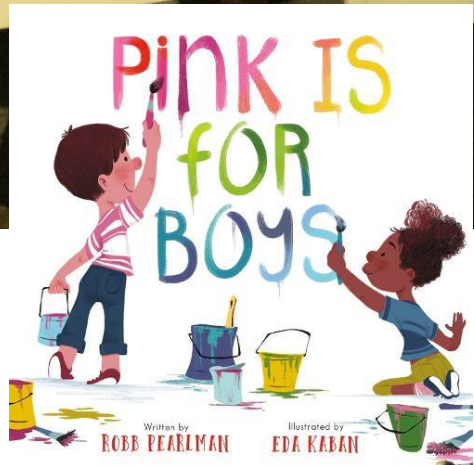

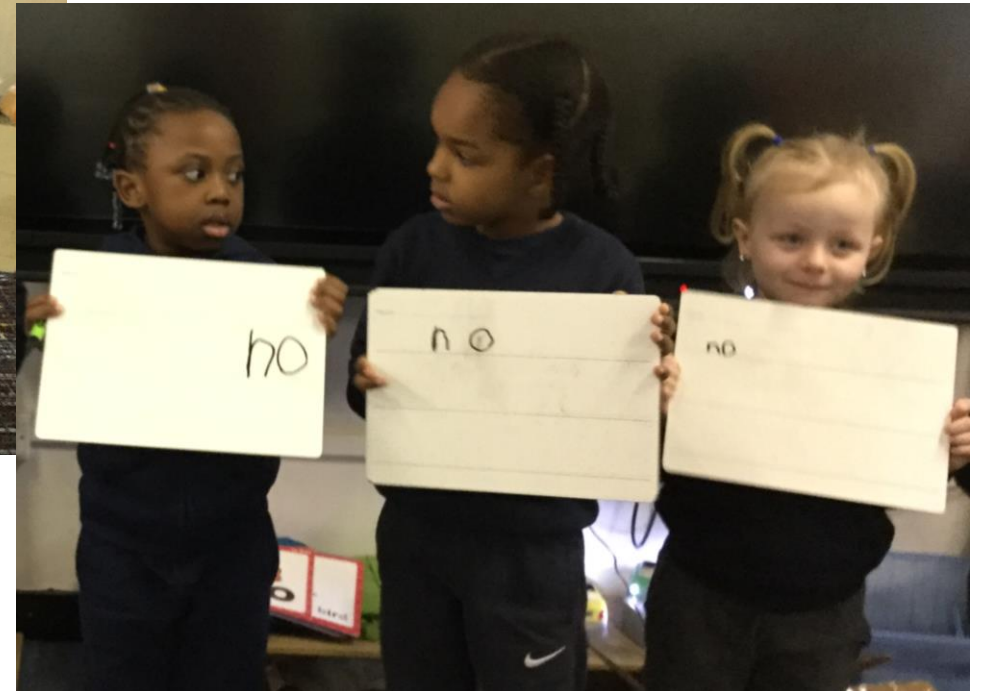

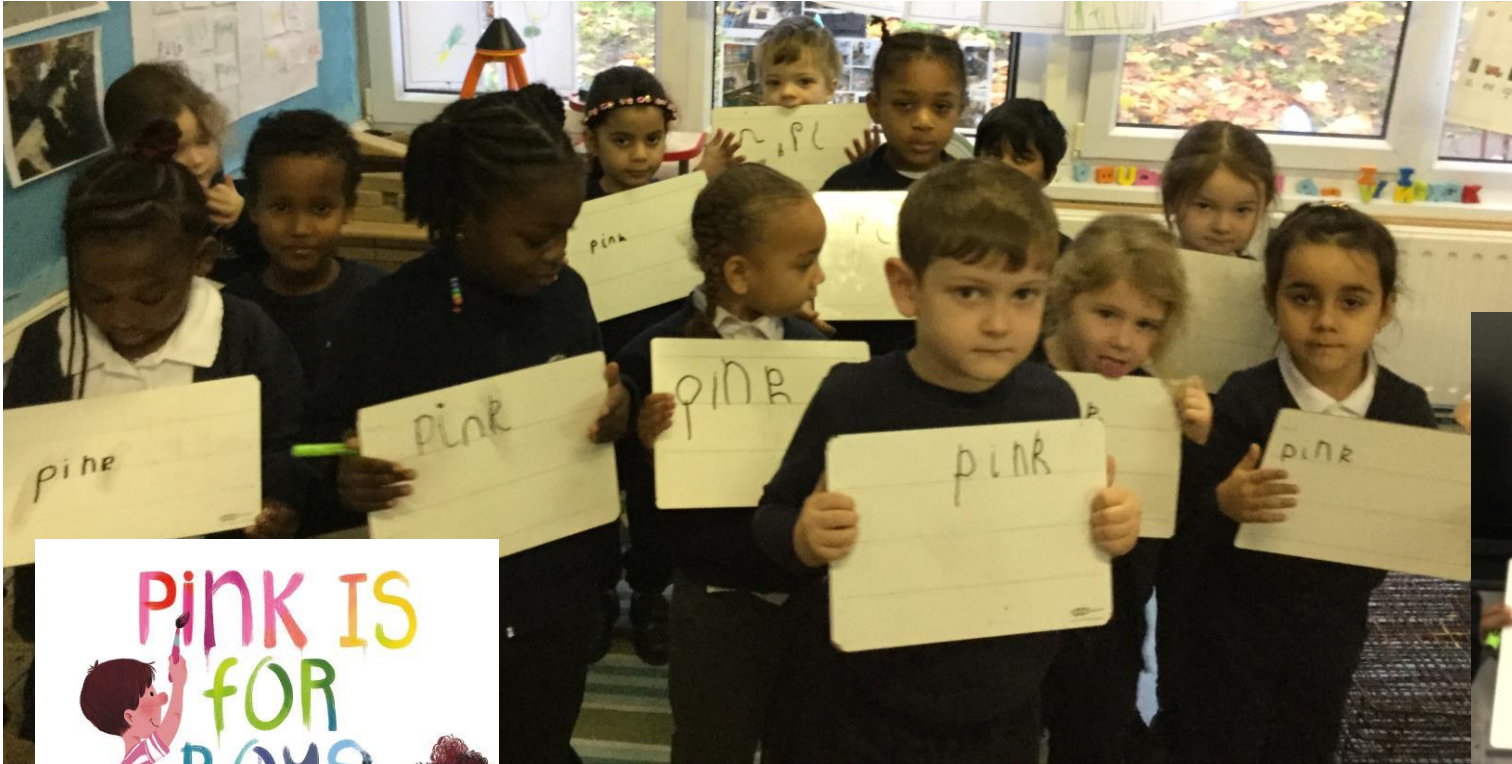

How did the  
yoga make you  
feel?

Over the last few weeks the children have been debating the statement 'pink is for boys.' They have thought about what makes them agree or disagree with it, if they think the statement is fair and how that might make their friends feel. This week they had to commit to a point of view and then justify it.

Reading high frequency words and then rolling them down the marble run.

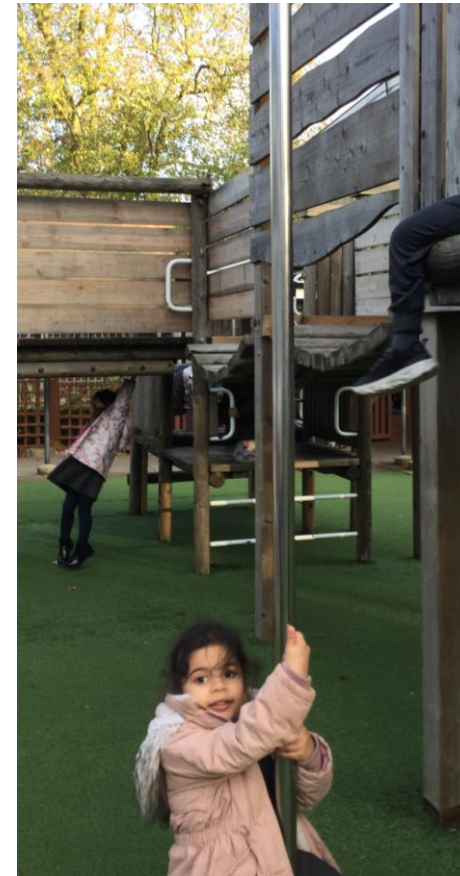

We looked at our Profile Books and remembered all the great things we have been learning about!

We tried on our Nativity costumes! Then we snuck into the hall for a sneaky song practise.

What else did you learn about this week?

Next Wednesday is our Torchlit Walk.  
If you are taking part then please pick your child up at 4.30! They need to bring a torch into school (with your child's name on it) on Wednesday morning!
