

We have been learning  
about...

7<sup>th</sup> October 2022

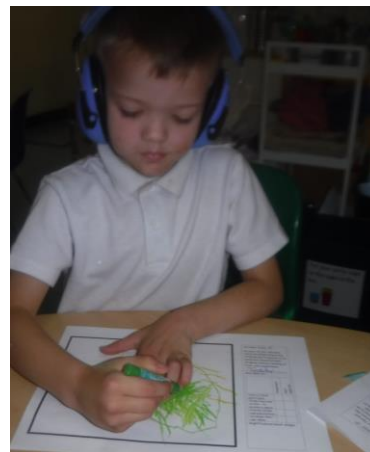

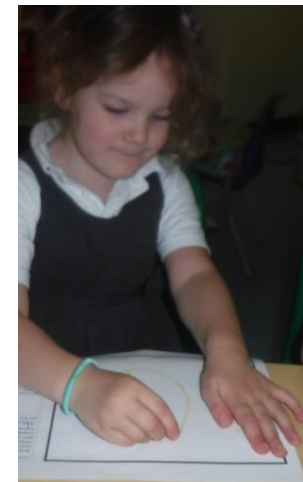

We went to church to celebrate the Harvest Festival.

We looked closely at different autumn vegetables. We thought about the shapes and colours we could see. Then we used the pastels to draw them.

Then we cut them up so that we look at what was inside them!

We are going to do an experiment and see what happens when we leave them until the end of the half term. What do you think will happen to them?

We have started our self portraits. We looked closely at our skin and matched it to the paint colour.

We thought about being quiet just like the children in our core text. We played a whispering game. What happened to your whisper?

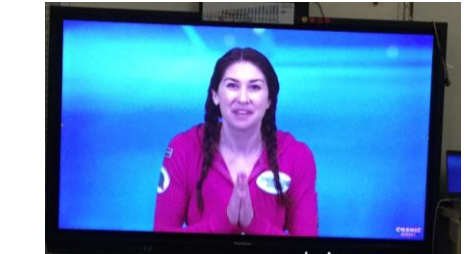

We sent a hello around the circle!

We worked on our core strength through Cosmic Kids Yoga!

We have been practicing how to write the letters we have been learning about.

**g o c k**

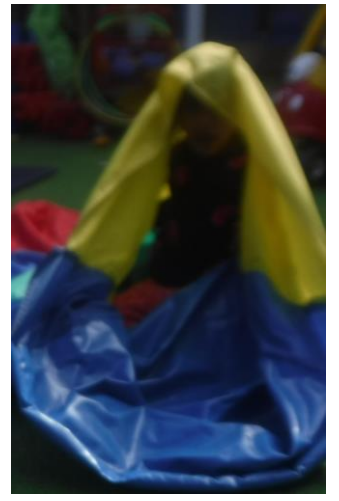

Manusri brought apples in for everyone in the class!

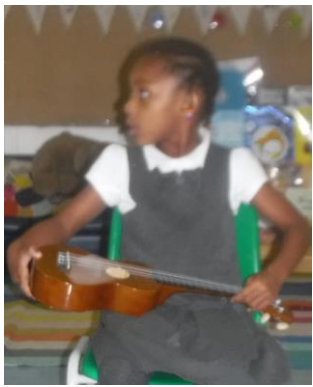

What else have you been learning about this week?

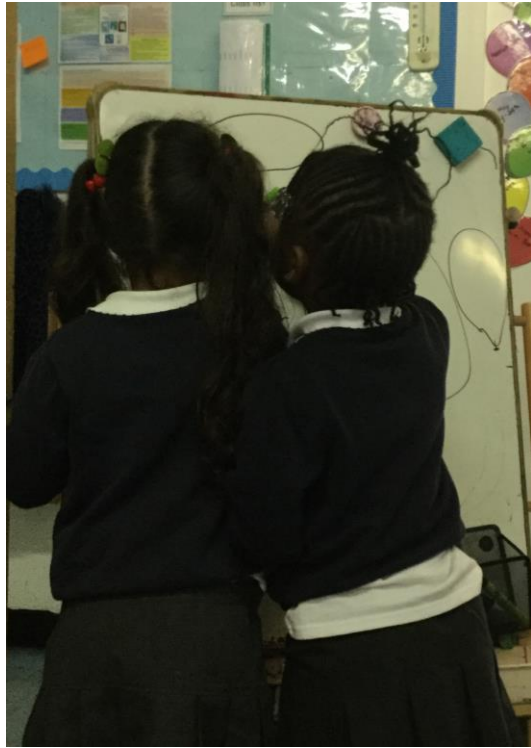

Happy 5th birthday!

The children created their own dance line and sang follow the leader!
