

We have been learning
about...

3rd June 2024

This week has been science week- we have been exploring bubbles.

Did the bubble wands change the shape of the bubbles?

What shapes were the giant bubbles?

We went on a wonderful trip to Camley Natural Park in Kings Cross.

We went for a walk in the woods. We saw all sorts of animal homes.

We went pond dipping.
What kinds of creatures did
you see?

We also went on a bug hunt. Where were the creatures living?

A person wearing a vibrant, multi-colored patterned jacket is shown in profile, holding a large green and yellow ball. They are in an outdoor play area with green artificial grass. In the background, there are blue storage bins, a wooden toy wagon, and a small soccer ball.

What else have you been up to?
