

We have been learning
about...

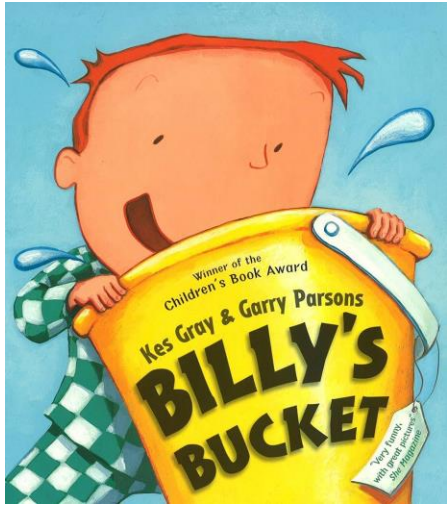

26th April 2024

This week we have started enjoying the first of our core texts for the Summer term, Billy's Bucket! Billy wanted a bucket for his birthday.

What would you like for your birthday?

We've also been practicing subitizing.

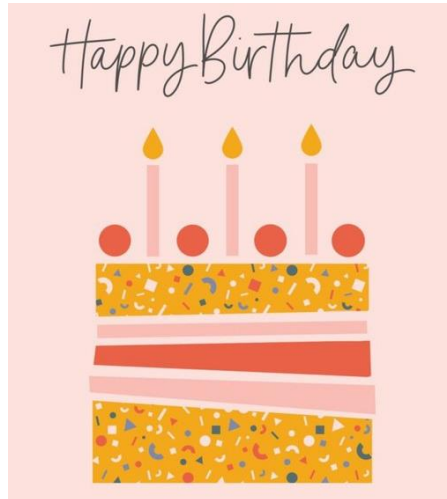

Did you know that it's a clever skill we are developing to help us know how many there are without counting?

How many fish did you have in your bucket?

We have also been making birthday cards this week. Who did you make a birthday card for?

We have had lots of fun on the large structure this week. Can you see us all moving up and down, in and out?

What else have you been up to?
