

We have been learning  
about...

2<sup>nd</sup> October 2023

This week we have been thinking about making maps ready for our trip to Sudden Hill!

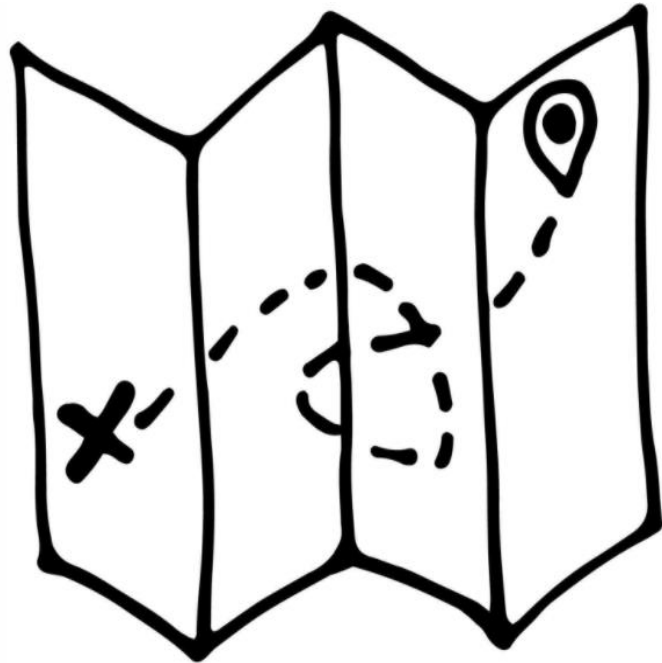

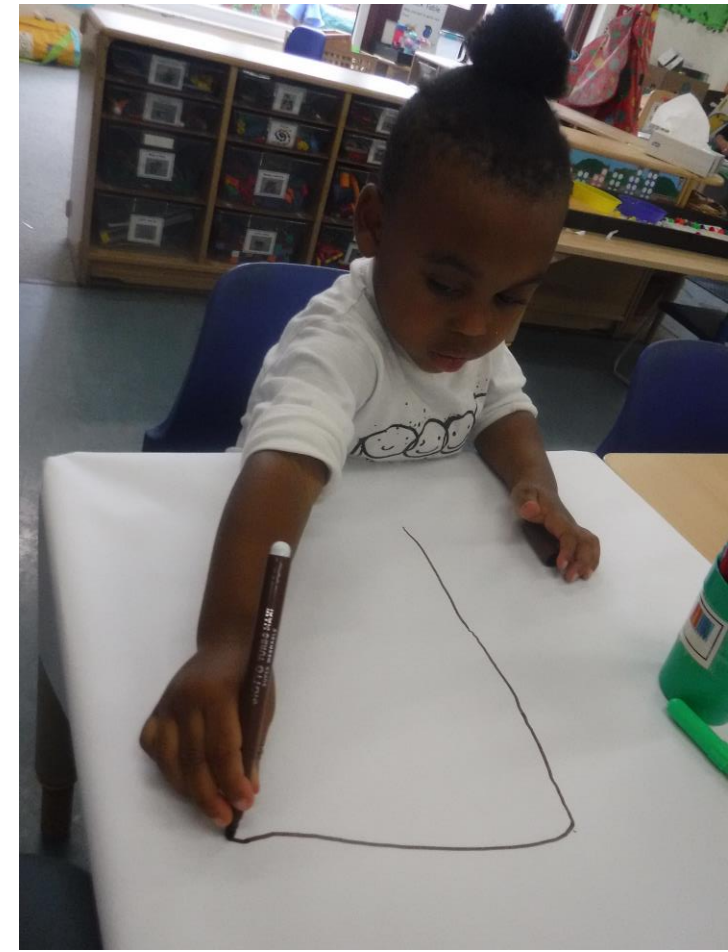

We thought  
about the  
setting of  
Sudden Hill as  
described in the  
book.

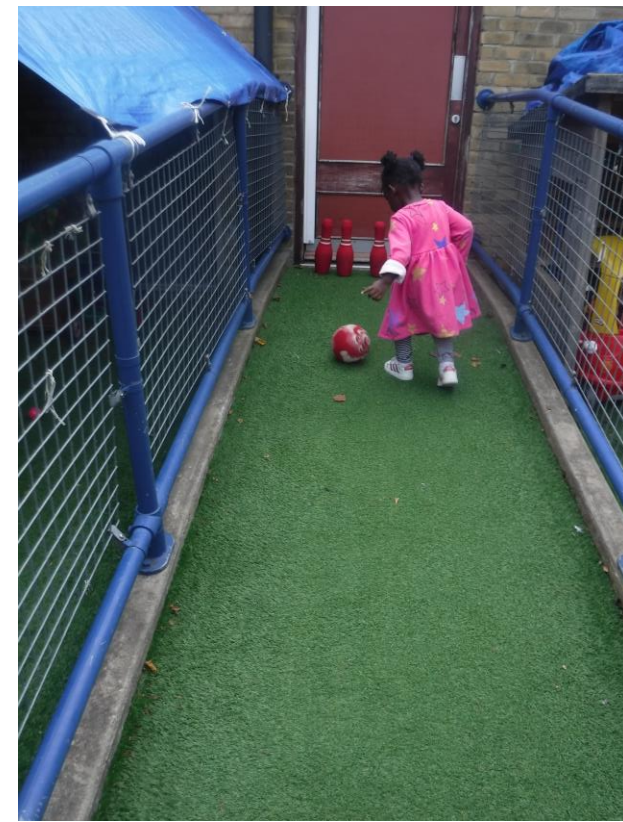

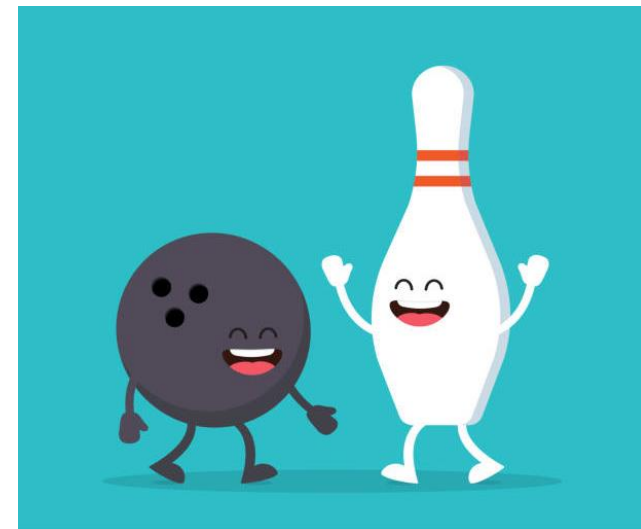

We included details to show the places Birt and Etho liked to play.

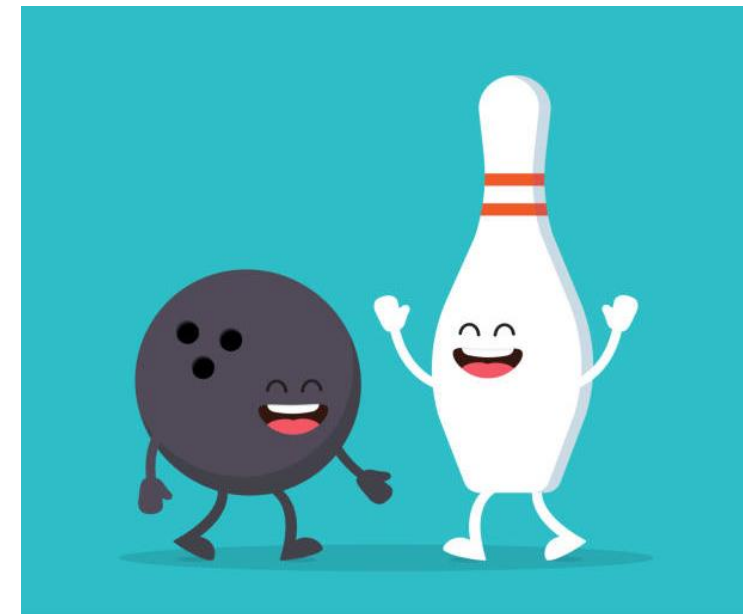

We've also been practicing our counting skills with fun bowling!

How many skittles could you count?

We went on our trip  
to "Sudden Hill" with  
Reception and Y5.

We've  
been  
exploring  
the  
Numicon  
with the  
playdough!

How did you  
build a house for  
your soft toy?

A photograph of three children sitting at a table, looking at a craft project. They are wearing red party vests with colorful polka dots and triangles. The table is covered with a black sheet of paper, and the craft project consists of a dark, textured base with gold and silver beads, orange and yellow string, and small white pearls. The text "What else have you been up to?" is overlaid in white. 

What else have you been up to?

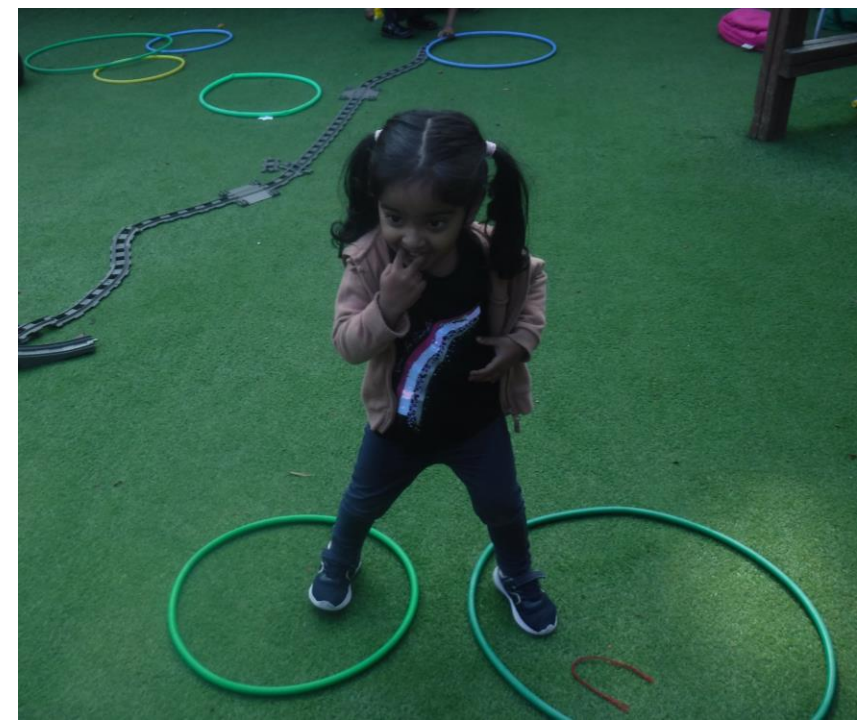

Don't forget  
we have our  
film night  
next  
Thursday  
after school  
to start to  
raise money  
for our end  
of year trip.
