

We have been learning about ...

28/04/25 -02/05/25

This week we have started our new big topic thinking about growth and change. We visited the eco-garden to look for creatures that might live in the pond

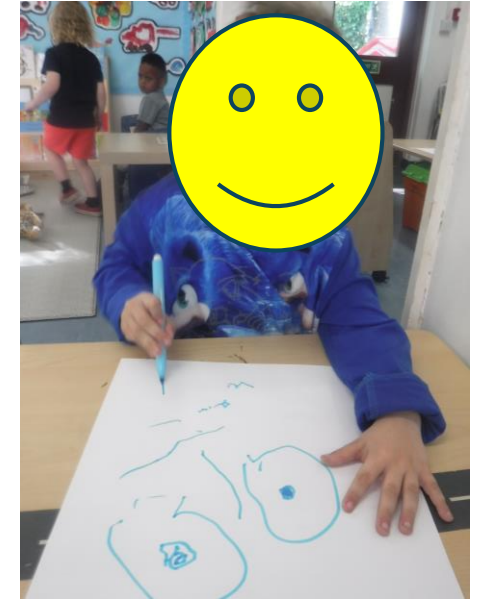

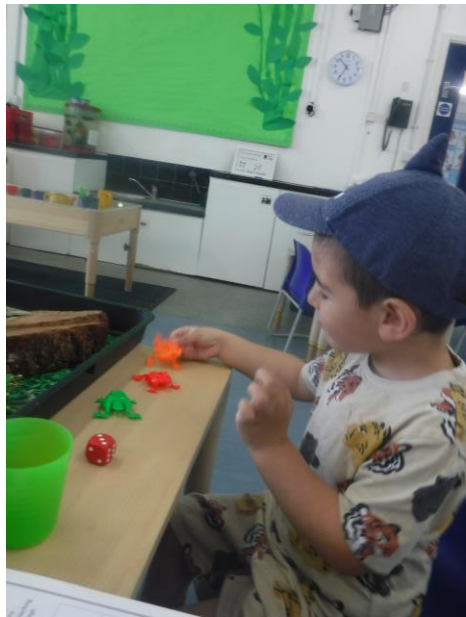

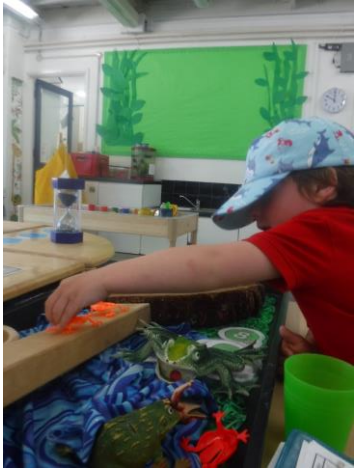

We started reading our first summer core text, Tad.
Tad lives in a pond and she is scared of Big Blub.
What did you think Big Blub looked like?

Did you think Big blub was more like a crocodile, a shark or a dinosaur?

We have also been counting and playing a speckled frogs on the log game, counting and placing frogs to match our dice spots

How many speckled frogs did you have on your log?

How did you count carefully to make sure you counted each frog only once?

Could you match the number of frogs you had on your log with the correct numeral?

We snipped and cut our tadpole outlines, and decorated our tadpoles with felt pens to make them look like the ones we had seen.

Did you practice cutting with Miss Carol? What did your tadpole look like?

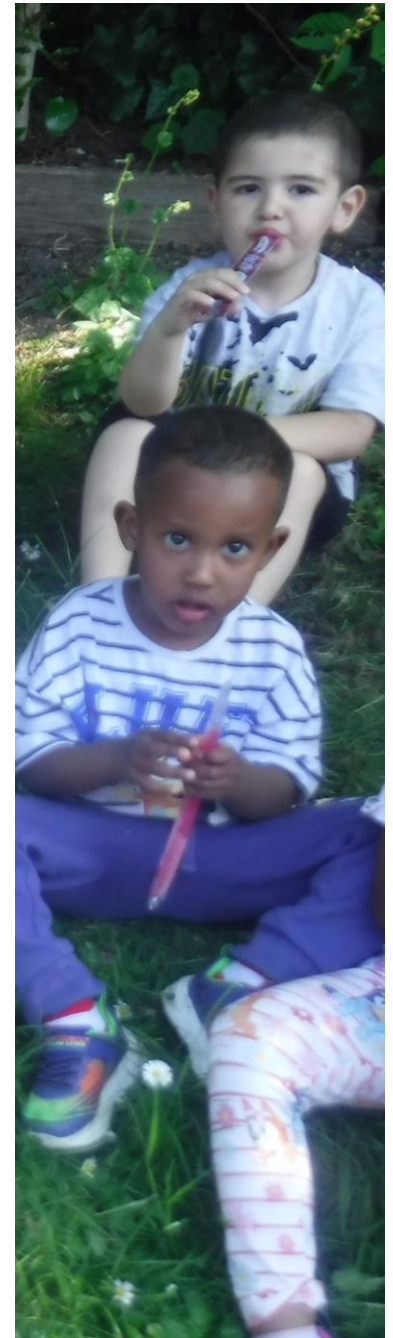

It was so hot on Thursday that we had a little paddle! Did Big Blub tickle your toes?!

It has been so hot, we have been enjoying ice poles and ice lollies to keep us cool!

What else have you been up to?
