

### Display it!

Make a poster about it to put up at your window to share with your neighbours.

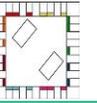

### Publish it!

Make a book about it – your books could have lift the flaps etc.! It could be for a younger sibling and it could be information or instructions!

### Play it!

Make up a board game that uses your new knowledge- use a dice, counters etc.

### Test it!

Challenge your family to ask you 10 questions on the topic – will you be able to answer them in no more than 2 minutes?

### Read about it!

Read a book, a website, magazine etc. about it.

### Create it!

Paint it, draw it, print it, model it out of playdough!

### Quiz it!

Create some true/false questions to test your family on your topic.

### What is it!

An alien has landed – tell them everything you know about it!

### Present it or Code it!

Use IT to present about it, code it or create a website for it, make a video about it.

### Talk it!

Prepare a 5/10-minute speech for your family, book a time when they can sit down and listen properly with a nice cup of tea!

Take a topic that you...  
Either know lots about  
Or want to learn about  
Then can you ...

### Good evening and welcome it!

Put together a TV show about your topic. Pretend to be a presenter, interview someone, show pictures. Video it if you can and edit it. Send it to a relative.

### Act it!

Write / act out a play about it – include parts for your family!

### Make someone's day with it!

Share what you have been doing with someone not in your house. Send an email / make a phone call/ FaceTime. Great for cheering up people you can't see at the moment.
