

We have been learning about...

11<sup>th</sup> to 15<sup>th</sup> May 2026

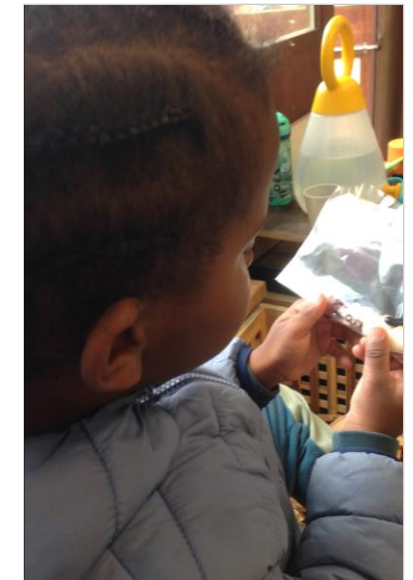

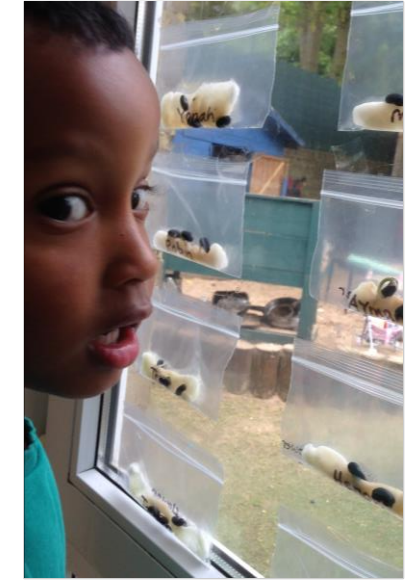

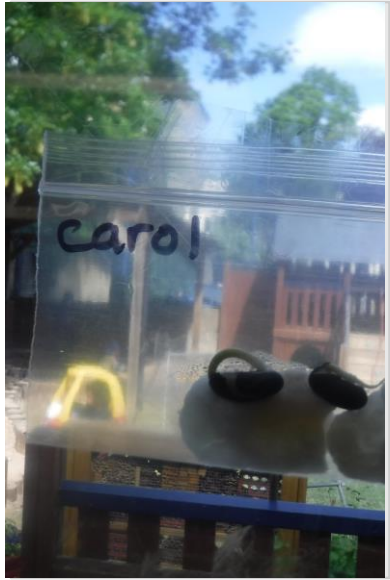

This week we have been planting seeds!

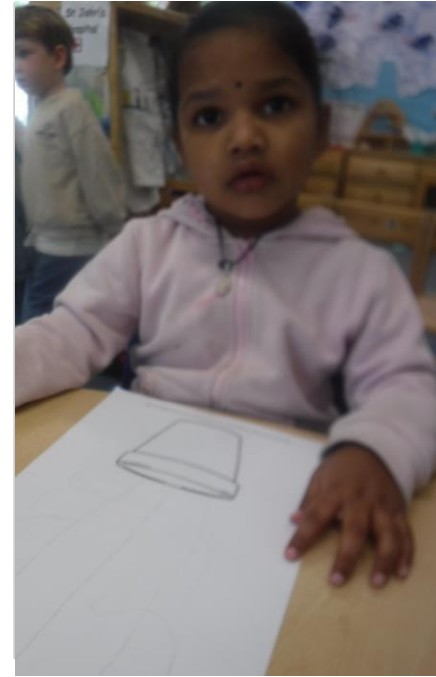

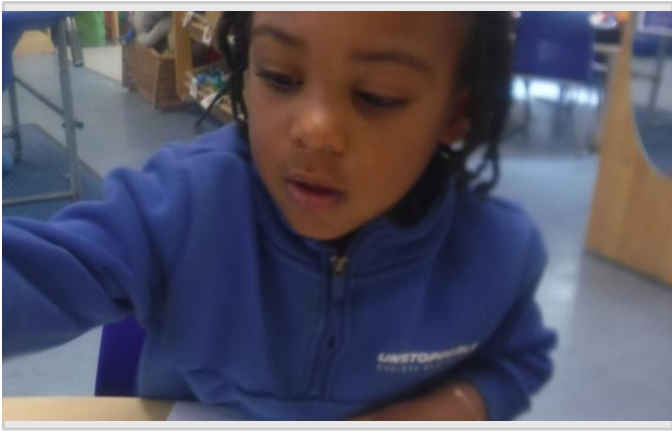

What did you think your seed would grow into?

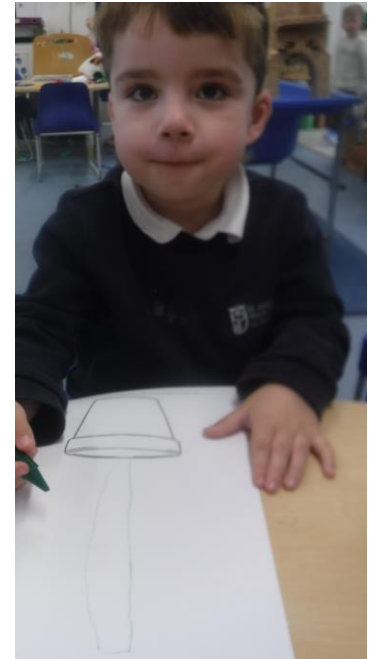

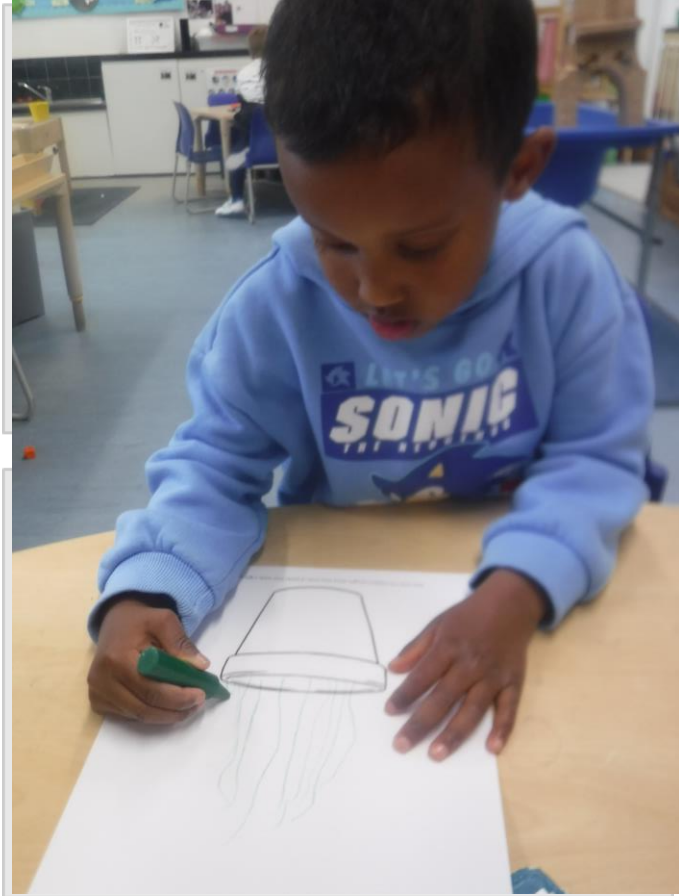

**We've been watching our beans to see what they will do...**  
**We've had a bean sprout race!**

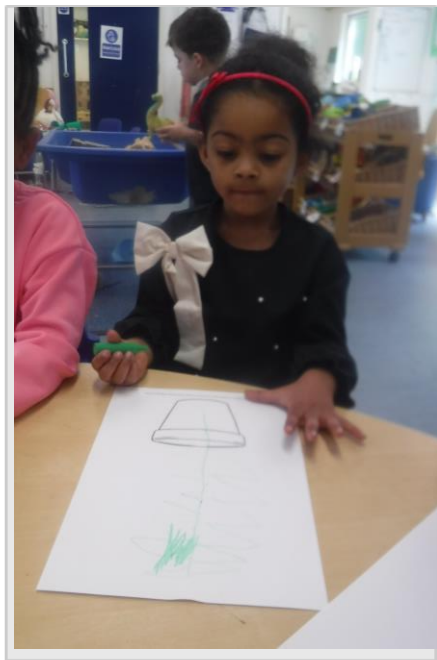

We drew pictures of what we thought our plants might grow into

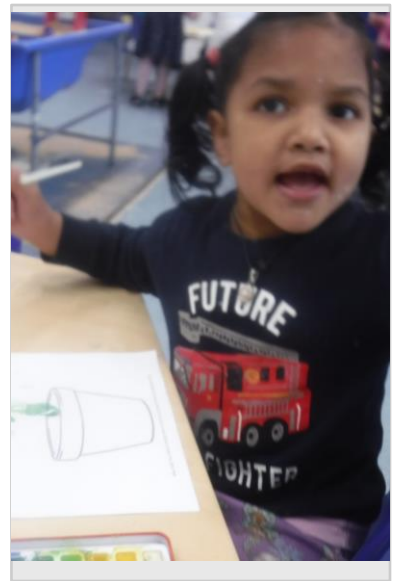

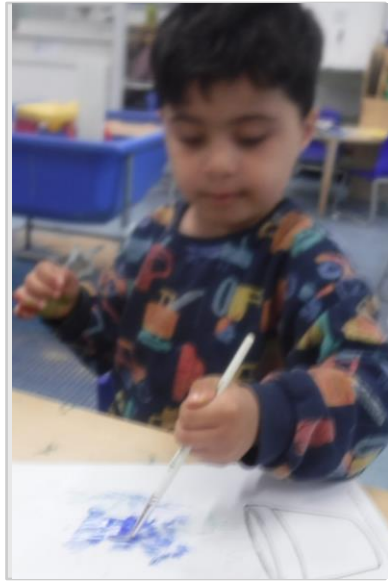

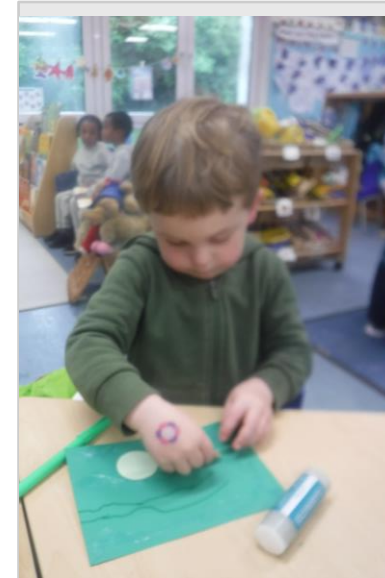

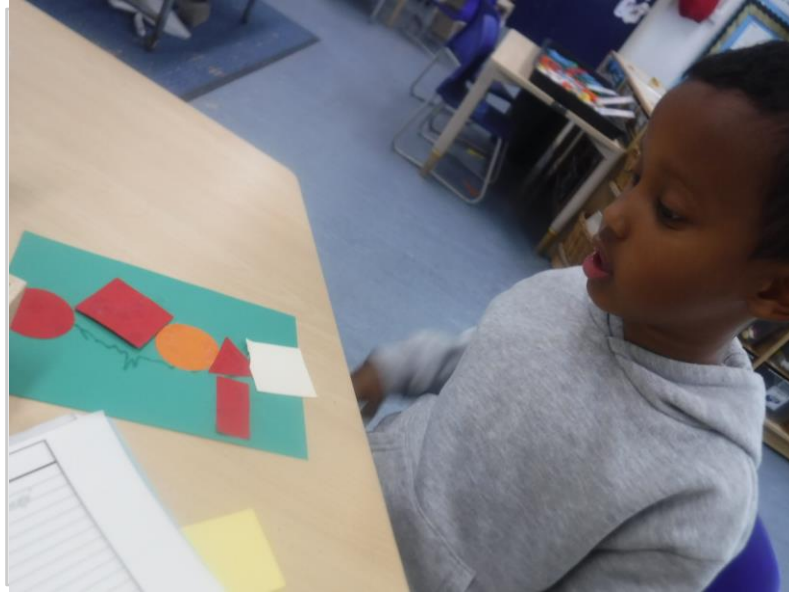

First we drew the plant with crayons. We decided what kind of plant would grow from our seed and then drew our tomato, sausage, hot wheels or rainbow flower plants!

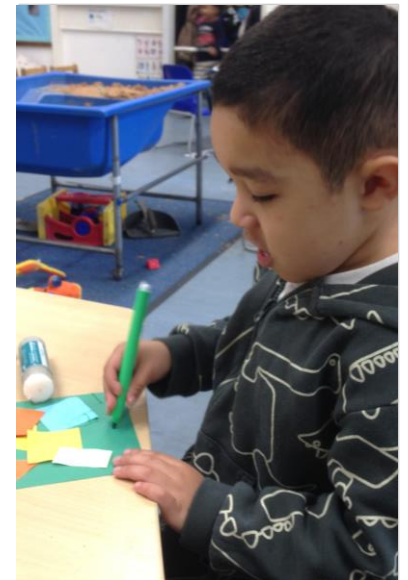

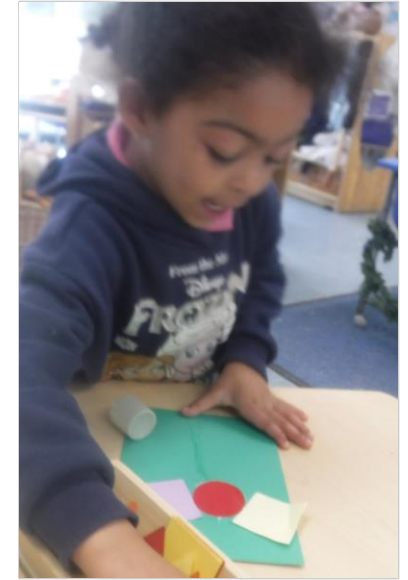

**Then we used watercolours to add more detail and effects to our pictures.  
We experimented with different brush strokes and mixed colours together.**

We've been making shape flower gardens. We chose shapes and stuck them into our gardens. Did you use any circles, triangles, squares or rectangles?

# Which shapes did you combine to make flowers?

**What else did you get up to?**
