

What we have been learning about...

15th September to 19th September 2025

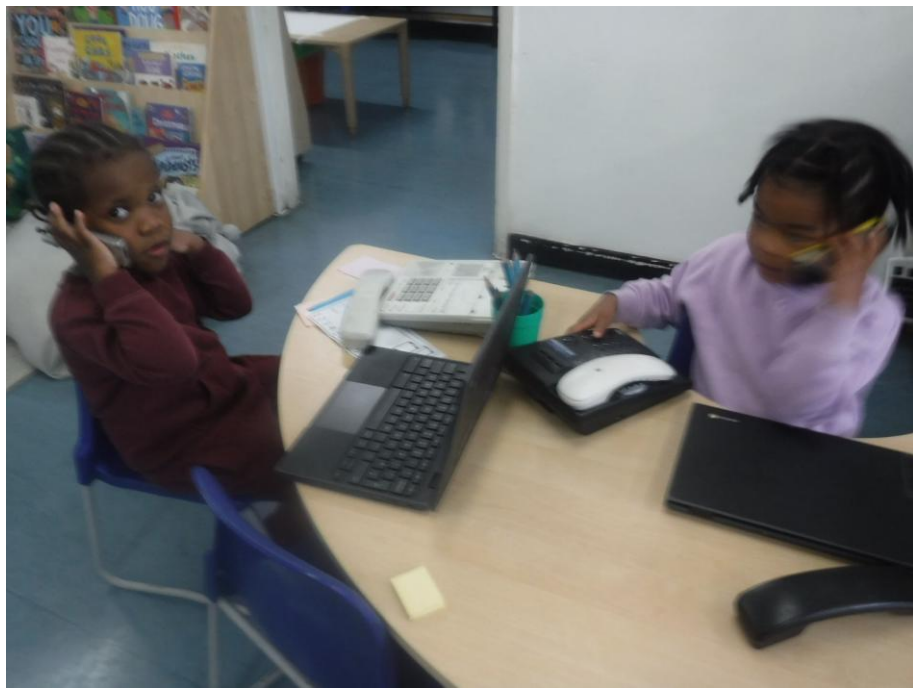

This week we have been continuing to settle into Nursery routines and begin to experiment with new things we have not tried before!

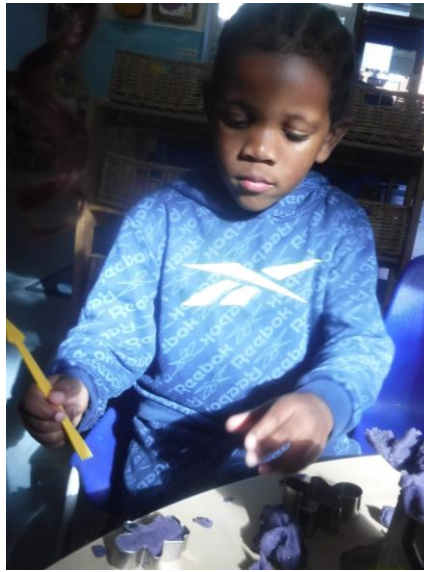

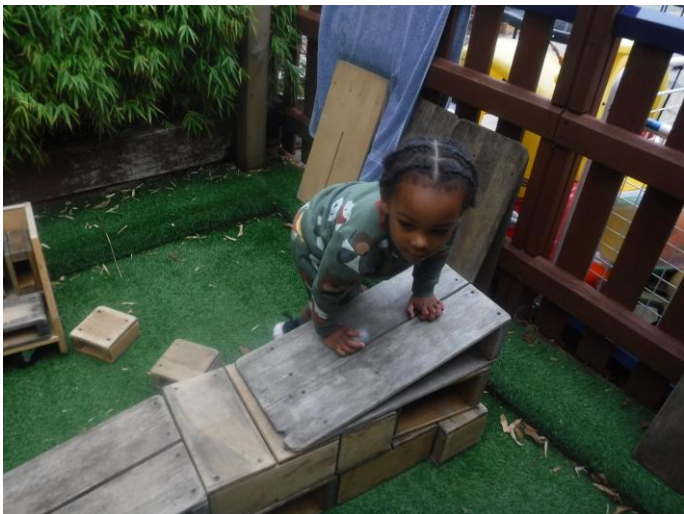

We've started to explore all sorts of different play using our senses and talking about what we can see, hear or feel.

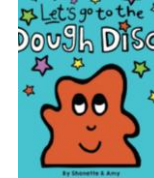

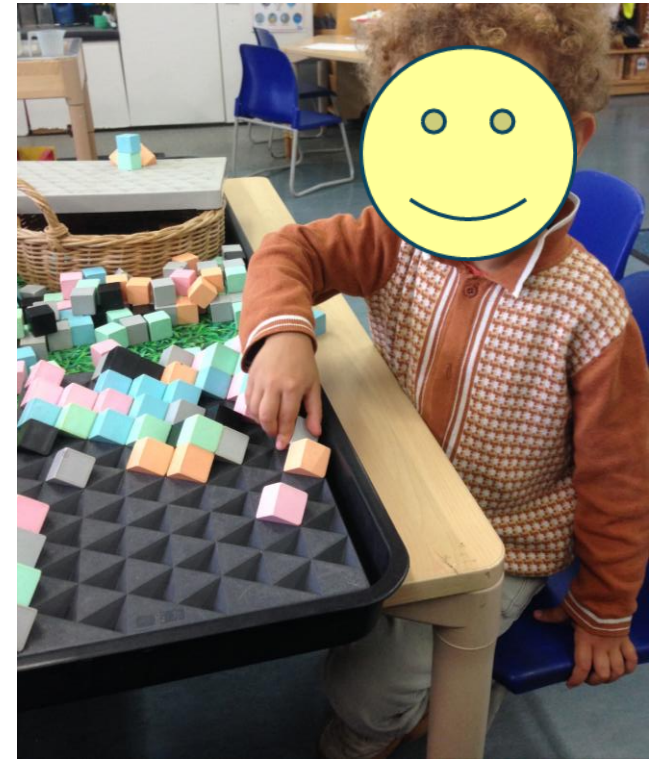

We've started experimenting with our own ideas and beginning to explore new things we can do with resources. What did you notice when you tried a new thing?

We have been making our fingers strong with Dough Disco. Strong fingers help us to develop our pencil grip and help with many pre-writing skills. Take a look on Seesaw for some Dough disco activities you can do at home with your families. The more you practice the stronger your fingers will be!

What a great start to our learning journey in Nursery!
I wonder where our learning will take us next week?

Don't forget to pick up your Seesaw passwords from Miss Min next week so that you can continue the fun learning at home and share our new songs and stories with your families!
